Dear Scotland Yard and every Her Majesty's Courts

In line of the reports about Johnny Depp who is, unfortunately, struggling with alcohol abuse controversy?

I've created theories and research about the new secret abuse history of William Roache:

As I'm warn the fans of Coronation Street, in my research, that he is still scary and still struggling by a sex abuse scandal than as we thought today if may be true.

In 2014, I've accused William Roache for banishing his name from a court for his own trial. However, it's possibly true to respond that he may be no longer a good person; like Jimmy Saville but he died five years ago at the age of 85. Bill may be a nasty person after all.

If William Roache finally found guilty, then Johnny Depp can clear his name.

I've also researched that Rolf Harris and Michael De Vall may be found guilty of charges as well.

Here's the timeline for the future retrial of William Roache:

September: he'll be charged against the abuses.

December: the theories about his sex abuse unveiled.

January: William Roache will be found guilty to allow Johnny Depp to clear his name.

Thanks very much.
